

## Online safeguarding training for ministers

As part of our commitment to support ministers with ongoing learning, all accredited ministers are required to complete an online safeguarding training module each year. The modules are topic based, and are sent directly to each minister, who can then confirm that they have completed the learning activities.

The learning materials are also made available more widely, and the resources below are available to anyone who would like to add to their understanding of safeguarding in a church setting.

### Module 1 – Understanding domestic abuse
